

# Schoolology for Guardians

Schoolology is our learning management system where students access course materials, submit work, and access Groups (for athletics and activities). Parents and guardians can create their **own Schoolology accounts** and be able to view their students' course materials, submitted work, teacher comments on work, and group information.

## Signing Up

First, you will need your unique access code that can be found in your **parent/guardian PowerSchool account** under the **Other Info** tab.

Log in to **PowerSchool**, click **Other Info** on the left side of the screen, and copy the **Schoolology access code** from the screen. You will need this to create your account.

Once you have your student's access code, go to <https://app.schoolology.com/register.php?type=parent> and enter your student's access code.

Each student has a unique code. If you have **multiple students at the same school**, you'll **start with one code** to create your account, then [add additional students](#) after your account is created.

Fill out YOUR information (**your** first and last name, email address, and password of your choice). **Don't use your student's name here**; it will be confusing for teachers and for you. Your student's name will show up automatically based on the access code you entered.

Click **Register** once you have entered your information and agreed to the Privacy Policy and Terms of Use. (You don't need to subscribe to the blog.)

## Navigating Schoology

Once you are logged in, you can choose your student's name from the **dropdown menu in the upper right**.

Now you will see **Student Activity**. This is the "home" screen that shows all recent activity. You can filter this activity by Most Recent, updates, submissions (work your student has turned in through Schoology), comments, and grades. **Please remember that even though teachers may assign grades within Schoology, PowerSchool always has the official grade, and you should check there for the current grade in progress.**

You can click on **Enrollments** to view a list of courses and groups that your student is enrolled in. You can click on any course or group to view more. You can also access Courses and Groups using the menu at the top of the screen.

Clicking on any **course** or **group** will allow you to see updates from the teacher, activity sponsor or coach, and all course materials.

Clicking on **assignments, quizzes, assessments, and discussions** within a course will let you view your student's submissions and comments, so you can see their actual work.

Talk with your student about how their teachers organize Schoology if you have questions.

## Account Settings & Notifications

If you would like to set up Schoology notifications or adjust any account settings, you can do that by clicking Settings in the upper right corner dropdown menu.

**Account Settings** will allow you to change your email address, account password and some default views.

**Notifications** will allow you to set up email notifications with reports of your student's schoology activity. You can choose to get daily notifications or weekly notifications, and you can choose the day of week and time.

You can also get an email notification when a due date has passed without your student submitting something. (*This will only work if the teacher assigns a due date in Schoology.*) Please be sure to communicate with your student, your students' teachers, activity sponsors, or coaches if you have questions about what's in Schoology.

## Add a Student to Your Account

To add another student at the same school to your Schoology account, click the dropdown in the upper right and choose **Add Child**.

Enter **that student's unique Schoology Code** (from PowerSchool Other Info).

Use the dropdown to toggle between students.
